

How Does It Make You Feel

Air

I am feeling very warm right now, please don't disappear
I am spacing out with you
You are the most beautiful entity that I've ever dreamed of
At night I will protect you in your dreams I will be your angel
You worry so much about not having enough time together
It makes no difference to me, I would be happy with just
One minute in your arms Let's have an extended play together
You're telling me that we live too far to love each other
But our love can stretch further than you and I can see
So how does this make you feel? How does it make you feel?
How does it make you feel?
How does it make you feel?
How does it make you feel? Do you know that when you look at me
It is a salvation
I've been waiting for you for so long
I can drive on that road forever I wish you could exist to live on my planet
Well it's very hard for me
To say these things in your presence
So how does this make you feel? How does it make you feel?
How does it make you feel?
How does it make you feel?
How does it make you feel? How does it make you feel?
How does it make you feel?
How does it make you feel?
How does it make you feel? So how does this make you feel?
Well, I really think you should quit smoking
