

# Siesta (For Snake)

## Clap Your Hands Say Yeah

Human shit and cigarettes  
and weekends away in the city  
Far too far gone to well-say  
It seems today's like any other day You just call me up to tell me  
you're gone when I already know  
You couldn't stand it any longer A Mexican engineer  
who told me I should do some running  
before it gets too goddamn late  
now stealing cars in Guanajuato The drag queen comes to the window  
She says I'd been told you had already gone  
Why don't you stay a little longer? Shutting  
Shutting  
Shutting down  
Closing up for awhile  
Shutting  
Shutting  
Shutting down  
Forget me now Human shit and cigarettes  
And weekends away in the city  
Far too far gone to well-say  
It seems today's like any other day
