

Dawning On Me (Crouch Angeles Version)

Villagers

I've been awake for so long now
just can't get to sleep
you've been tugging at my eyelids
you've been dawning on me
and there's a light coming through the window
but all I can see
is the light of your love
you've been dawning on me
dawning on me
I've been awake for so long now
just cant get to sleep
you've been calling on the sunlight
you've been dawning on me
to your lips
to your belly
to your knees and your feet
and the spirit that moves them
you've been dawning on me
youve been dawning me
i've been awake for so long now
just cant get to sleep
you've been delivering the daydream
you've been dawning on me
there's a light coming through the window
but all i can see is the light of your love
you've been dawning on me
