

# Heart Falls Out

David Archuleta

Oohh ooh noo  
Im still here but I dont feel the same  
I wasnt ready for the change  
But you cant control, what you dont see coming  
Youve made plans, theres no room for me  
Withheld your honesty  
Took a part of me when you took off runnin[Pre-chorus]  
I tried to hold myself together  
But Im out of my depth, ever since you left.[Chorus]  
Is this how it feels when a heart falls out?  
Youre missing a piece, you cant live without it  
Try to breath but your lungs shut down  
When your heart falls out  
Is this how it feels when a heart falls out?  
Empty inside, but youve fallen down  
Just tried to breath, but your lungs shut down  
When your heart falls out (falls out)Oh oh no  
Heart falls out  
Ooh noIm still here, knowing what I lost inside  
Confided now my hands are tied  
Its a battle in my head and I'm not winnig[Pre-chorus]  
I tried to hold myself together  
At times the feelings unknown, Im sick of what Ive become  
Yeeah yeah[Chorus]  
Is this how it feels when a heart falls out?  
Youre missing a piece, you cant live without it  
Try to breath but your lungs shut down  
When your heart falls out  
Is this how it feels when a heart falls out?  
Empty inside, but youve fallen down  
Just trying to breath, but your lungs shut down  
When your heart falls out (falls out)Uuuh ooh oh uuuh oh  
Uh ohUuh Im gonna find my feet, carry back to me  
Restore my heart beat  
Oohh ooh[Chorus 2x]  
Is this how it feels when a heart falls out?  
Youre missing a piece, so cant live without it  
Try to breath but your lungs shut down  
When your heart falls out

Is this how it feels when a heart falls out?  
Empty inside, but youve fallen down  
Just trying to breath, but your lungs shut down  
When your heart falls out (falls out)
