

Baby The Rain Must Fall

[Glenn Yarbrough](#)

Baby, sometimes the rain must fall
Somethings in this world you can't change at all
And some nights dreams are like broken mirrors
Shattered all around

If I could I would chase all the clouds away
Make every shadow fade
And I'll build a place, there'd be no tears at all
Sometimes baby, the rain must fall

And baby, this thing called gravity
Baby, keeps us prisoners on the ground
The world can get so heavy on your shoulders
Hey, that it might break it down

If I could I would chase all the clouds away
Make every shadow fade
I'll build a place, there'd be no tears at all
Sometimes baby, the rain must fall

If I could I would chase all the clouds away
Make every shadow fade
I'll build a place, there'd be no tears at all
Sometimes baby, sometimes baby, the rain must fall
