

Smile Electric

40 Below Summer

One time in my life
It won't be such a pain
Just a couple of guys with the vibe in every way
We'll put it together, shuttin' it down
And you'll watch me pull the lever We're all bout to break, get a 9 to 5
And it's time to get your head straight
So get your call, you wore me into it all Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric Believe this is the truth, pick up your boots
'Cuz it's time to put your fist through
And we come to shin, I'm bringin' it back
To the front up in your mind's eye I'm 'bout to stretch when I'm comin' alive
With the up in your headset
It's movin' too fast, it's about to crash Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric Get back, get it off, get it straight, you're gettin' tossed
Drive into this, you're gonna miss, you're gonna burn
Up in flames, you're gonna smile, you're gonna change
Dive in the shower, this time is ours Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric Smile, don't you give up your smile
Don't you give up your smile electric
Smile, don't you give up your smile
Don't you give up your smile electric
