I Think Ur A Contra

Vampire Weekend

I had a feeling once that you and I
Could tell each other everything for two months
But even without hope, with truth on our side
When you turn away from me, it's not right
I think you're a Contra
I think you're a Contra
I think you're a Contra
I think you're a Contra
My revolution thoughts, you little lies of desire
I wanna trace 'em to the source and the wire
But it's not useful now since we both made up our minds
You gonna watch out for yourself so will I
I think you're Contra
I think that you lie
Don't call me Contra
'Til you've tried
You wanted good schools and friends with pools
You're not a Contra
You wanted rock 'n' roll, complete control
Well, I don't know
Never pick sides, never choose between two
But I just wanted you, I just wanted you
Said never pick sides, never choose between two
But I just wanted you, I just wanted you
I think you're Contra
I think that you lie
Don't call me Contra
'Til you've tried
