

# Fireside

[Arctic Monkeys - www.musicasparabaixar.org](http://www.musicasparabaixar.org)

I can't explain but I wanna try  
There's this image of you and I  
And it goes dancing by in the morning and in the night time  
There's all these secrets that I can't keep  
Like in my heart there's that hotel suite  
And you lived there so long it's kinda strange now you're gone I'm not sure if I should show you what I've found  
Has it gone for good or is it coming back around?  
Isn't it hard to make up your mind  
When you're losing and your fuse is fireside There's all those places we used to go  
And I suspect you already know  
But that place on Memory Lane you liked  
Still looks the same but something about it's changed I'm not sure if I should show you what I've found  
Has it gone for good or is it coming back around?  
Isn't it hard to make up your mind  
When you're losing and your fuse is fireside And I thought I was yours forever  
Well maybe I was mistaken  
But I just can't help my nature make it through the day  
Without thinking of you lately I'm not sure if I should show you what I've found  
Has it gone for good or is it coming back around?  
Isn't it hard to make up your mind  
When you're losing and your fuse is fireside
