

Stars Are Aligned

Darlia

Let's not make peace again
I'm tired of hearing amends
They'll never leave you alone
I'm swimming deep again
I guess the rest just depends
on how you feel when you go
While we watch you
Yes the chants are on fire
Ah, well maybe you're wild
Kiss the rock in the sky Ah, 'cause stars are aligned, my stars are aligned
Potion delirium, mayflower surrender
In the dark no one knows who you are
Taxidermy play dead, and best of all
I wasn't laughing at anything in particular
While we watch you
Yes the chants are on fire
Ah, well maybe you're wild
Kiss the rock in the sky
Ah, 'cause stars are aligned, my stars are aligned Do you promise me?
Do you promise me?
Do you promise me?
Do you promise me? Yes the chants are on fire
Ah, well maybe you're wild
Kiss the rock in the sky
Ah, 'cause stars are aligned, my stars are aligned
