

# Misunderstood

## Allele

It seems that I  
Don't know a thing about you  
So now I know  
What you came here for Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood The stones  
That you throw  
They'll never reach the bottom  
So now I know what you came here for Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood It's like you, a cancer  
It seeds down inside everything [x2] Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood
