Aliens

Alex Lloyd

So the aliens have landed
They'll be moving through you and I
And as the family disbanded
They dragged the sadness into lightNo more tears, no more pain
Only things to keep you sane
It's only funAnd in the distance there's talk now
Everyone wants to go home
I hope you know you're not leaving
For the night has just begunNo more tears, no more pain
Only things to keep you sane
Only funAnd if I live to stay a day
Words are left to throw away
Only funNo pain for a rusty boat
Rusty boatAnd it started
No pain for a rusty boat
Down hearted
No pain for a rusty boatYou got to spill it out
Spill it out, spill it out
You got to spill it out
Spill it out, spill it outAnd if I live to stay a day
Words are left to fade away
It's only funNo more tears, no more pain
Only things to keep you sane
Only fun
