The Burning Times

Testament

Back in time the punishment
Was burn all you witches burn
Some mothers burned, burned alive
Hear the children cry...Children Crying... mothers dying...Some would die the innocent
Some would die a whore
Some so scared the children fled
Confused by this worldWhy... they don't want to
Burn... alive...Caught in the burning times
When all the witches died
Still hear the children crying
The burning times...Some say when you float a witch
You set free their soul
I've always said... burn the bitch
My spoken words of old
Why... they don't want to
Burn... aliveCaught in the burning times
When all the witches died
Still hear the children crying
The burning times...Back in time the punishment
Was burn all you witches burn
Some paid the price of their crimes
Caught in the burning timesWhy... they don't want to
Burn... alive...Caught in the burning times
So many people died
Still hear the children crying
The burning times...Caught in the burning times
Caught in the burning times
Caught in the burning times
