

We're Back

Bobby Brown

Huh! They're employed! I know it's tough and slimy!
Bill, you know what I'm saying, big, big-a-big boy! Ah! You find yourself caught up in a silly game
(That's child's play!) Don't play me out
The world depends on every little move we make
(It's serious!) Cold serious Now the time has come for all good to clone and overthrow the bad
We're here to make a change, so all can be free, a call has been made
And we We're back (We're back!) Oh, we're back
We're back to fight the evil, we will never deceive you
(We're back!) We're back
We're back to fight the evil, we will never deceive you Working hard to try to fight the evil plague, yeah
But don't you let nothing get in the way, yeah Now the time has come for all good to know
And overthrow the bad, yo
We're here to make a change, so all can be free, a call has been made
And we We're back (We're back!) Oh, we're back
We're back to fight the evil, we will never deceive you
We're back (We're back!) Yeah
We're back to fight the evil, we will never deceive you
Oh, we're back (We're back!)
We're back to fight the evil, we will never deceive you
Never deceive you (We're back!)
We're back to fight the evil, we will never deceive you We're back, so start cuttin' up, 'cause ain't nothin' up
Pardon my expression, but huh, you ain't tough enough (We're back!)
In fact you're timid, weak, soft, illiterate
Call yourself a magician, I'm not kickin' it
(To fight the evil, we will never deceive you) (We're back!)
You're at the top of my list, you're most wanted
Back to take revenge for the people you haunted and haunted
(We're back!) To be afraid of your tricks and games
But, before you do that remember our name
(To fight the evil, we will never deceive you) (We're back!) Screaming for the life, do you baby? Screaming for
the life, do U baby?
Screaming (Ohhh ohhh ohhh ohhh) (We're back!)
Screaming for the life, do you baby? Screaming for the life, do U baby?
Screaming (Ohhh ohhh ohhh ohh ohh ohh) Now the time has come for all good to know and overthrow the bad
(We're back!) We're here to make a change, so all can be free
A call has been made, and we We're back (We're back!)
(We're back to fight the evil, we will never deceive you)
(We're back!) And we're back 2 fight the evil, we will never deceive U
We will never (We're back!) No

(We're back to fight the evil, we will never deceive you)
No, no, no, noooooo (We're back!) No, noooo, I said we're back
(We're back to fight the evil, we will never deceive you)
We are brave to fight the evil, baby (We're back!) Yeah, yeah, yeah
(We're back to fight the evil, we will never deceive you)
Now we're just coolin' for the love beat, now kick it, say it!
(We're back!) Go! Go! Go! Go! Go! Go! Go! Go!
(We're back to fight the evil, we will never deceive you)
Go! Go! Go! Go! Go! Go! One! Go!
(We're back to fight the evil, we will never deceive you)
(We're back!) Whoa!
(We're back to fight the evil, we will never deceive you)
Good-good-good (We're back!) Ow! Uh! Yeah!
(We're back to fight the evil, we will never deceive you)
(We're back! We're back to fight the evil, we will never deceive you)
(We're back! We're back to fight the evil, we will never deceive you)
I said we're back (We're back!) Girl
(We're back to fight the evil, we will never deceive you)
