

My Heart Is Your Home

August Moon

Chorus:

My heart is your home, you're never alone

And if you doubt it, send it out the back door

My heart is your home, you're never alone

You're never alone You may be far away from me

But darling, everyday I'm with

Close your eyes and you will see me beside you

Whispering I love you Chorus There might be times when you start to think too much

But I could never leave you

Through the worst I will be there

Reminding you I miss you, I love you, I'm with you Chorus Soon you'll be with me, and everything will be just
right

Sit tight, 'cause we're shooting for the stars

We'll go far, so far, and cast away your fears

I'm here, and I'll never give up on you Chorus
