

# Won't That Be Fine

**Ginny Owens**

I've been feeling a little bit overwhelmed  
I've been a little too wrapped up in myself  
    So many things to cloud my mind  
    I need to leave them all behind  
And think about a place and time beyond this life  
    Won't that be fine  
    Oh, when the sun always shines  
    Nothin' but love all the time  
    Oh, won't that be fine  
    I love to get caught up in this daydream  
    I smile to think about all that I'll see  
    And any need I've ever had  
    Any question that I want to ask  
    Won't even matter gone with the past  
    Oh, won't that be fine  
    Oh, when the sun always shines  
    And there is love all the time  
    Oh, won't that be fine
