Fade Away

Sloan

Trace patterns to see
If we're just rewriting history
The die, it was cast long agoA carbon copy we could have been
Buried under files that won't be seen
The die, it was cast long agoEverybody seems content to fade away
Oh, you got it, don't shut it awaySomething once mattered to me
But it's forgotten so conveniently
Is it the end of the family line?A carbon copy I could have been
Don't you know I never settled for the in-between
The die, it was cast long agoEverybody seems content to fade away
Oh you got it, don't shut it away
