

# Delete Yourself! You Got No Chance to Win!

## Atari Teenage Riot

You put on the videohelmet and you quickly realize that this is not just another videogame - your entire field of vision fills with another worldly scene - you're in the game! - one day will com  
Enter the cyberspace and you never ever want to get out - cause reality is shit and cyberspace is gone:Delete yourself - delete yourself

Go!

Are you ready?Delete yourself! you got no chance to win! (x4)

The shit the shit is gonna make me sick

You're telling me this I tell you that

You're sitting there fat and what do you get?

Is nothing for your money!

No chance to win that's what I tell you

But find it out your problem isn't mine

Try to feel something any longer

Ha! we're getting stronger!

The end of the new age that's what it is!

Let's take the piss there's nothing to risk

Oh come on! shoot the fuckers and sweat the technique

Two blind eyes that's what we need

Go away and play your game!

Here's the order:

Delete yourself!

Go!Delete yourself! you got no chance to win! (x4)

Fbi and cia

I'm waiting for the day when they stop playing

1984 is a joke when you see where we are 10 years later!

War will be a warm up and then it will be forgotten

Politicians lie while others die - I've had enough!

Tell the truth that's what I want

Tell a lie I can't decide whether it's right or wrong

Fuck the system, man, fuck it up!

Start the riot! start it now!

You don't know? we tell you how!

Come policeman shoot me down! you'll lose atr is around!
