

# No Regrets

Pusha T

[Hook - Kevin Cossom]

Yeah, I'm on the move, I can-can't look back (No way)

Screaming "No regrets, no regrets at all"

Wasting time, I can't get that back

Uh, so every day I go hard

Real nigga and all my niggas real niggas

Came from making real figures (Too much money)

Nothing less, no regrets (Let's get it)

No-no, no regrets, ahhh...[Verse 1 - Pusha T]

Say hi to the bad guy, say ahhh to the champagne

Got a call from my jail niggas, said I'm doing my damn thing

(Woo!) They see I'm doing my damn thing

Magazines, videos, they ain't missing a damn thing

Nowadays I sell hope, what you rather I sell dope?

What I sell is a lifestyle, naked bitches on sailboats

Foreign cars on a freight train for every nigga they railroad

Rent-a-cars we road run, money longer than train smoke

I done been in that same boat, I ain't letting this chain go

Representing my niggas down till they free 'em like Django

It's the same old, just the same old

How the game go, where the pain go, where the blame go

My mind wanders on a PJ, my momma brought up in the PJs

In the club sippin' P&J on the same arm as my Piaget (Woo!)

If I leave today, throw the keys away

But I'mma live today, I wanna see tomorrow, I wanna lead the way[Hook][Verse 2 - Jeezy]

Momma had me in the ghetto, I was raised in the slums

Every hero got theme music, guess I need me some drums

Bought me a 5 for 50, I bust 'em down, it was jumps

Trying to be fresh as forces, I swear they white as new ones

Streets taught us, streets raised us, had it less determined

Dodging jackers, dodging murders, federal to state pen

Uncle got power, now I see him in another 10

We was set up just to lose, Lord know we trying to win

In the pursuit of this power, this masterpiece to the hour

You know it's platinum and waterproof, wear this bitch in the shower

Yeah, we want finer things, plus a plug in the scale

Yeah, them plates shining like diamond rings at back can't you tell?

In the hood I'm a king, King Arthur to the people

Except he got his on a Chariot, I got mine in a Regal

Sport cars, Italian leather, Princess Cut, with baguettes  
Law of physics say them 9s weigh more when they wet  
No regrets[Hook][Verse 3 - Pusha T]  
Presidential I came back, April showers I rains back  
Jumped ahead like June something, still I'm wheeling that Maybach  
Tom Ford with my braids back, Tom Ford and my shades black  
Dope boy with a cape on, super-sizing that beige back  
All white like Gotti said, Ye told me I'm outta here  
Mentioned Ye two years ago, yeah, I got that by the square  
(Woo!) And you could buy a pair, 20 or more and we'll fly 'em there  
How you acting like I'm ain't here? D-boy and I pioneer[Hook]
