

# Our Only Hope

## Dara Maclean

She still keeps the pictures up of who she lost  
Joy is a memory that she forgot  
Life wasn't fair to her  
A cold room and all alone  
She cries tonight, her prayers are angry words  
They're questions why life wasn't fair to her

### CHORUS

You're healer to the broken  
Shepherd to the lost  
Father to the orphan  
Adopted by the cross  
There's comfort in Your arms  
It's where our healing starts  
Our only hope is Jesus

He's tired of carrying his father's words  
Telling him he's not enough, he has no worth  
He's memorized the lines  
He works his life away to measure up  
And all he's left with is empty love  
Even he can find the love he's been denied

### CHORUS

Our only hope is Jesus

Even though I walk down broken roads  
I will never have to walk alone  
When I cannot stand on my own feet, You will carry me

### CHORUS

Our only hope is Jesus  
Our only hope is Jesus  
Our only hope is Jesus
