Hunting Trees

Palette Town

verse 1)
i cant see, youre running away.
just let it go. when you feel so, you--

you try your best, but its taking long
and even though i cant talk,
you try to be, you try to be--

chorus)
follow your heart, and this time, show me
"ill never fall again", all the things that you said.
x2

verse 2)
inside it kills me when you dont know what to say.
you got nothing to lose, you got nothing to lose.
you try your best, but its taking long,
and even though i cant talk.
you try to be, you try to be--

chorus)
follow your heart, and this time, show me.
"i'll never fall again", all the things that you said.
x2

verse 3)
never forget the things that you said.
never forget what you said.
i cant see, youre running away-way
just let it go, just let it go.
when you tried your best, and its taking long.
and even though i cant talk,
you try to be, you try to be--
