

Little Star-(w Ryan Adams)

Jesse Malin

We sing along, to broken song
We work all week, in double speak
We celebrate like strangersI can make it happen
I can make it happen
Little StarWhen the raindrops fall
And you heard it all
Let the four winds blow awayMisunderstood
Like Robin Hood
And Peter Pan
RedemptionI can make it happen
I can make it happen
Little StarWhen the raindrops fall
And you heard it all
Let the four winds blow awayIf I could only make you believe in me
We'll find a place of our own in this galaxyWe'll run away, in unmarked cars
We'll find our place, beneath these stars
Just click your heels, don't touch that dial
Hold me close
RedemptionI can make it happen
I can make it happen
I can make it happen
Little StarWhen the raindrops fall
And you heard it all
Let the four winds blow away
On a night like this
You can make a wish
And it's one more kiss away
