(Jesus Is My) Everything

By The Tree

What would we do if love were dead?
What would we say with all those silly things inside our head?
Well, I don't mean to cause a scene
But we've forgotten all the important thingsI want each word I speak to be the truth
And make a difference with the things I say and doEvery hour of every day
(Everywhere I go)
And every step along the way
(Yeah)
I want the world to see
Jesus is my everythingI feel all this pressure caving in
Well, maybe I should try to write a hit song just like you did
So, that I can move off to Hollywood
And be a big big star just like you said I should
