This Great Vibration

Vincent John

You know just like I do
That the sun will go down
Sooner or later
Ooh yeah
So let the moon shine tonight
I donâ€™t know why
We do the things we do
But we do
And we do it right
Staying out all night tonight

Don't look back
On the things youâ€™ve done you wish you couldâ€™ve changed
Donâ€™t forget when
When the summerâ€™s gone and you wish you couldâ€™ve stayed
We all take place in This Great Vibration
This Great Vibration
Donâ€™t throw your love away

Took a drive going nowhere
Ended up on the street you said to me
That we could never be together
Two worlds that were never meant to be as one
But I know you know I
I donâ€™t know why
We do the things we do
But we do
And we do it right
Staying out all night
Tonight

Don't look back
On the things youâ€™ve done you wish you couldâ€™ve changed
Donâ€™t forget when
When the summerâ€™s gone and you wish you couldâ€™ve stayed
We all take place in This Great Vibration
This Great Vibration
Donâ€™t throw your love away
When your luck runs out and you just canâ€™t get it right

Want to be the only one whoâ€™s gonna get you through the night
We all take place in This Great Vibration
This Great Vibration
Donâ€™t throw your love away
