

# Rush

## Omar Afuni

Verse 1:

I got this song on reply  
Like I got you on my brain  
I just can't get enough of  
That one thing that you do to me  
I feel like a big airplane  
A fast car on the highway  
I'm so high on the speed babe  
Adrenaline running through my veins

Pre-Chorus:

Oh oh... No drug or pill baby  
Oh oh... can compare to this feeling  
Oh oh... I feel it every time that I (look at you)  
Imagine what'd it be like to (be with you)  
Can't help but hush, imagine touching you, my biggest crush

Chorus:

You give me such a... Rush (x6)  
You give me such a... Rush (x6)  
You give me such a... Rush (x6)  
You give me such a... Rush (x6)

Verse 2:

Can't help but use cliché metaphors  
Got no word play  
Don't know how to portray  
My feelings, but I'll try anyway  
I don't need no drug babe  
To get me high, take me away  
No weed, hash or MDMA  
Can even do what you do to me

Repeat Pre-Chorus & Chorus

Bridge:  
Rush to the head, a fire that spread  
You consume all of me until nothing's left  
Rush to the head, a fire that spread  
You consume all of me until nothing's left

Rap:

Ruff ruff! Come on, give this dog a bone  
Baby can't you hear it in my undertone?  
Never wanted anyone the nasty way that I want you  
It's nasty cause I'm feeling things I've never felt before  
I got commitment problems, I'm a freak of nature  
'cause it's hard for me to love, it's easier to hate ya  
So what did you do? I'm to you a moth to a flame  
I'm gonna take my shot, need you mine to proclaim  
I don't do this much (no no)

I'm really a good boy (yeah yeah)  
But you look too good (aha!)  
Not to take a bite (Aaah!)  
So easily my heart you managed to grab  
I'm standing firmly here like a ring in your hand  
You got me hooked, got me shook up  
Won't even take a look at anyone else  
If you say no, I'm so gon' need rehab Repeat Chorus You give me such a rush
