Eventually

Zox

The evening smolders into night
Turn up the music and i'll drive into the city lights
The wind is on your face
I'm blowing kisses down from outer spaceBaby won't you be
Part of my fantasy
Cause i can't sit and wait around until eventually
So let me take you home
And watch your garden grow
A little closer and i'll make it so you can't say noCaress the rhythm with our feet
We move as one and everyone around can feel the heat
Let's take a step outside
Cause me and you got something we should hideSo baby won't you be
Part of my fantasy
Cause i can't sit and wait around until eventually
Let me take you home
And watch your garden grow
Alittle closer and i'll make it so you can't say noUh and its making me crazy
To be your friend when you're my fantasyThe morning's melting into day
We're nose to nose and i don't think that i could turn away
The world is in this room
The world is in this roomSo baby won't you be
Part of my fantasy
Cause i can't sit and wait around until eventually
Let me take you home
And watch your garden grow
A little closer and i'll make it so you can't say no
