I Will Find You

S Club 7

I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you boy near or far
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
I fell in love with this girl I saw
And I'm pretty sure that me and her have met before
So why did I act so shy and didn't say a thing
'Cause now I'm wonderin'
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
I saw this boy and he looked at me
I noticed him but did he notice me
Why did I act so shy didn't say a thing
'Cause now I'm wonderin'
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
'Cause I want to be the one
'Cause I want to be your boy
And I want to be your girl
'Cause I want to be the one
'Cause I want to be your boy
And I want to be your girl
With everyday, with every hour we're getting closer

And with time you will find
What you've been looking for, looking for
Looking here, looking there
I've been looking here
I've been looking there tryin' to find you
Can somebody help me find you
When I find you girl, I'm gonna show you the world
'Cause now I'm wonderin'
I've been looking here, looking there
Can you tell me who, tell me where
'Cause wherever I am, wherever you are
I will find you girl near or far
'Cause I want to be the one
'Cause I want to be your boy
And I want to be your girl
And I want to be your girl
And I want to be your girl
And I want to be your girl
