

A Way to the Heart

Noise Ratchet

"A Way to the Heart" Welcome to this world today,
You're seeing things a different way...inside This blood is here to save your soul
It takes you down a better road....
There's....A way to the heart now...A way down deep inside
A way to the heart now...there's something better there.....His eyes they see into our minds,
throw away the demons lies.... inside And his angels' tears they cry for you
Angels' tears they always make things, new.....There's....A way to the heart now,
A way down deep inside....
A way to the heart now.....there's something better there....A way to the heart now
A way to the heart now
A way to the heart now.... -Noise Ratchet
