

# I Am Who I Am

Lara Fabian

Feels like you've built a wall around me  
You've tried your best to ground me, let me explain  
That I don't play by any other rules  
I won't be nobody's fool, I won't lose this game  
There is no way  
I can love you with half of my heart  
There's no way  
It would tear me apart  
I am who I am, what else could I be  
And I'll stand where I stand, I chose to be me  
When you look in my eyes, you get what you see  
Understand if you can that I am who I am, who I am  
Think twice before you try to read me  
Before you try to lead me into your trap  
You've got no right to play with my emotion  
'Cause you should know that I'm much deeper than that  
There is no way  
I can love you with half of my heart  
There's no way  
It would tear me apart  
I am who I am, what else could I be  
And I'll stand where I stand, I chose to be me  
When you look in my eyes, you get what you see  
Understand if you can that I am who I am, who I am  
Dont try, no way that you can love me  
Think twice before you try to read me  
No right, wont let your love escape me  
There is no way  
I can love you with half of my heart  
No way  
It would tear me apart  
I am who I am, what else could I be  
And I'll stand where I stand, I chose to be me  
When you look in my eyes, you get what you see  
Understand if you can that I am who I am, who I am  
I am who I am, what else could I do  
And I'll stand where I stand, I chose to be me  
When you look in my eyes, you get what you see  
Understand if you can that I am who I am, who I am  
I am who I am, what else could I be  
And I'll stand where I stand, I chose to be me  
When you look in my eyes, you get what you see  
Understand if you can that I am who I am
