# Boy

## Those Darlins

Theres a boy in every city
In every town I go
And boy is he so pretty
Theres more pretty boys I know
Further down the road
The further that you go
The more youre gonna knowTheres a boy in New York City
Hes cultured and hes fine
I love when were together
We always have a real fast time
I wanna take it slow
But babe I gotta roll
On to the next showHold me now
Hold me now
Hold me now
Never let me go
Never let me go
Ill see you at the showTheres a boy in Panama City
Ive combed the world the beach and sand
For a love so hot and heavy
Fades just like the summers end
Ill see you around
You never let me down
You just live in the wrong townTheres a boy in Austin City
Hes a guitar playin man
He knows what Im goin through
So we love each other when we can
Well see you again but I dont know when
Or how much time well get to spendHold me now
Hold me now
Hold me now
Never let me go
Never let me go
Never let me go
Ill see you at the showNever let me down
You never let me down
Never let me down
Ill see you around
