# Hear You Breathing

## Calev

Hear You Breathing

I know youâ€™re barely breathing
I know you think Iâ€™ve changed
Let me in and Iâ€™ll let you see my ways
Be careful you just might want to stay

Youâ€™ll say darling, darling
Oh darling, darling
darling, darling
Youâ€™ll beg darling, darling

Hide me in the streets until the morning comes
Let me rest my head up against your chest
Till I hear you breathing

Let me hear you breathing

Time heals most anything
Swaying on the verge of sanity
We are facing all of these sane walls
You want to run but you wont hide

Let me hear you breathing
