

# Exit Wounds

## Bad Omens

Dead on the inside Raised by wolves, in sheep's clothes  
That abandoned me  
but taught me to get up when, I fall on my knees Man makes monster, monster kills man  
Taking your crown's always been part of the plan  
If you weren't so stuck in your own head, you'd be where I am now instead  
Nobody's gonna hear you  
When you're calling for help  
When you're calling for help  
Nobody's gonna hear you  
because the sound of my screams are gonna drown you out I've learned a lot but it took me too  
long to find out who I am  
And to prove you wrong  
How can you live before you die  
When you're already dead on the inside  
Dead on the inside  
Dead on the inside If you want an enemy I'll be the last one that you ever meet  
But I can tell you now, that you don't stand a god damn chance against me  
Nobody's gonna hear you  
When you're calling for help  
When you're calling for help  
Nobody's gonna hear you  
Because the sound of my screams are gonna drown you out I've learned a lot but it took me too long to find out  
who I am  
And to prove you wrong  
How can you live before you die  
When you're already dead on the inside Fuck that, Fuck this  
If you're gonna burn a bridge  
You better hold your breath and learn to swim  
Fuck that, Fuck this  
If you're gonna burn a bridge  
You better hold your breath and learn to swim I've learned a lot but it took me too long to find out who I am  
And to prove you wrong  
How can you live before you die  
When you're already dead on the inside I've learned a lot but it took me too long to find out who I am  
And to prove you wrong  
How can you live before you die  
When you're already dead on the inside  
Dead on the inside
