# Step Aside

## Faron Young

Angry words were spoken and I left my baby in a cloud of gloom
Got into my car and drove around until I spotted this saloon
Came inside and bought a drink then I saw you and felt a burning glow
Got the urge to hold you tight, but if I try refuse me, tell me no.Step aside if I try to get near you
Lock your heart if I start making time
Walk away if I say that I need you
Step aside if I step out of lineBitter is my feeling for my baby and the things she said so cruel
Half of me says cheat on her, but part of me says stop don't be a fool
Don't let me get close to you, 'cause if I do I won't be very strong
Save me from my conscience and keep me from being sorry later onStep aside if I try to get near you
Lock your heart if I start making time
Walk away if I say that I need you
Step aside if I step out of line (x2)
