# Make Your Body Move

## Spain

Two o'clock
You're all alone
Starting from across the roomCome right here
Girl you know
Just what our love can doWe don't have
To take it slow
Talking all the whole night troughI just want
To take you home
And make your body moveMake your body moveGirl you'll feel
Your loneliness
Drifting away from youAnd you'll see
This love exists
We found a love so trueNow we have
Happiness
It's what out love will proveI just wan't
To kiss your lips
And make your body move
