

# Luv

## Travis

What's so wrong  
Why the face so long?  
Is it over? And where you going  
That you no longer belong here  
And distance tells you  
That distance must come between love Where have you been luv?  
When the mistake we made  
Was in never having planned to fall in love, luv Singing this song, singing along  
Makes it easier for me to see you go  
But in doing so, in letting you go  
It only serves to show me that I'm still in love with you Singing this song, singing along  
Makes it easier for me to see you go  
But in doing so, in letting you go  
It only serves to show me that I'm still in love with you So what's so wrong  
Why the face so long?  
Are you changing? And where you been to  
That you no longer remember?  
And distance tells you  
That distance must come between love Where have you been luv?  
When the mistake we made  
Was in never having planned to fall in love, luv It's just the chance we took  
Having never ever planned to fall in love, luv  
It's just the chance we took  
Having never ever planned to fall in love, luv, love
