

You're Not That Good At Anything

Cloud Nothings

I was saying
You weren't that hot
I was saying
You weren't that cute
I was saying
You weren't that hot
I was saying
You weren't that cute But if she told you that 'cause
You are
But if she told you that 'cause
You are You're just not that good at anything
You're just not that good at anything
You're just not that good at anything
You're just not that good at anything I was saying
You weren't that sweet
I was saying
You weren't that great
I was saying
You weren't that sweet
I was saying
You weren't that great But whenever she told you that 'cause
You are
But whenever she told you that 'cause
You are
But whenever she told you that 'cause
You are
But whenever she told you that 'cause
You are You're just not that good at anything
You're just not that good at anything
You're just not that good at anything
You're just not that good at anything
