## Glasser

remember when we went through  
that dream when I came to you  
and we held each other on a trash-pile  
and we thought it odd  
that we knew it was ours  
how long before I know you  
that dream was an open mouth  
with references to pull out?  
but I cant figure out the English sc?  
I wont let it mean too much  
we all have our own ways to love  
I wont let me mean too much
