It's About Time

SWV

It's been too long, baby
It's been too longIt's been a week since I last saw you
Over and over I imagined all the things I'm gonna do
Soon, it will be time for this fantasy to come true
I've got something special I wanna try on youFirst, we kiss, then relax while I bring you some wine
Take off your shoes, get ready for a real good time
Tonight is yours and I belong to you
So let's get started, we've got some loving to doIt's about time for us
Maybe, maybe tonight
It's about time for us
MaybeEvery time you love me, it's like never before
And that just makes me wanna keep giving, giving you more
I'm gonna be the best I can be
'Cause I know that you're gonna do your best for meThere's nothing better than the way you're making me feel
Nothing could be so good, nothing could be so real
So let's get loving like this all night long
Making up for the time that you've been goneIt's about time for us
Maybe, maybe tonight
It's about time for us
MaybeIt's about time for us
Maybe, maybe tonight
It's about time for us
MaybeIt's about time for us
Maybe, maybe tonight
It's about time for us
MaybeIt's about time for us
Maybe, maybe tonight
It's about time for us
MaybeCome here, baby
It's about time for us
