Line Of Fire

Trixter

Muddy water running through your veins
Unlock the secret it's high time to break these chains
Try leapin' once before you look
Instead of tryin' to find your way off the hookYou never learn until you touch the wire
And when you do, ice and fire
Next time you're cheatin', don't forget to look
'Cause you've seen the movie but I wrote the bookWhen it comes down to the wire
Will you step into the line of fire?
When passion rules desire
You gotta' step into the line of fireWeak ones run for cover
But tough ones take the licks
Play both sides of the middle, baby
That's how you get your kicksDo you think that you'll be able
When it comes down to the crunch
Or will ya' lay your cards on the table
Are ya' tough enough to take the punchYou never learn until you touch the wire
And when you do, it's like ice and fire
Next time you're cheatin', don't forget to look
'Cause you've seen the movie but I wrote the bookWhen it comes down to the wire
Will you step into the line of fire?
When passion rules desire
You gotta' step into the line of fireYou step
Will you step?C'mon, baby
Will you step into the line?
Yeah, yeah, yesWhen it comes down to the wire
Will you step into the line of fire?
When passion rules desire
Step into the line of fireAnd when it comes down to the wire
Will you step into the line of fire?
[Incomprehensible] gettin' higher
You gotta' step into the line of fire, fire, fireWhen it comes into the wire
Step in, step in, step in, step in
Line of fire, fire
