You Got Me Dancing (Original Extended Mix)

JK

I know you got me dancing
Standing with no other
I know you got me dancing
Turning me around
I know you got me dancing
Standing with no other
I know you got me dancing dancing dancingYou know I'll never be dancing with another
So will you follow me down
I wanna tell you that I don't want no other turning me around
I'll never ever be walking with another
I'm gonna follow you down
And everytime that we hang on in together
Don't you know I just turn around round roundYou know I'll never be talking to another
Is this the way I feel
Coz' only you got the key to make it better
You can make it real
I'll never ever be dancing with another
I'm gonna follow you down
Coz' baby you are the one and i'm your lover
Don't you know I just turn around round round
