

# I Can

## Golden Smog

Outside the cold wind broke the mold  
You now I always loved it, just because I can  
Couldn't find the door you let me in  
You said I'm always welcome, sure you will again  
Call me the moment you wake up  
Our hand is stretched till  
under edge  
No one could ever stop us or give a shit, my friend  
And on the bus, you weighed your trust  
That wasn't made to be broken and it's never been  
Call me the moment you wake up  
When you close your eyes, do you think of me?  
When you close your eyes, do you think of me?  
Your eyes are bold, your heart is gold  
You know I always love you, just because I can  
I let you in, you're always welcome  
That's how it's always been  
And if it feels like no one else understands  
You know I can  
And if you're feeling no one else understands  
You better believe I can  
You know what's wrong with me  
You know what's wrong with me  
And you know what's wrong with me  
You know what's wrong with me  
When you close your eyes, do you think of me?  
When you close your eyes, do you think of me?  
When you close your eyes, do you think of me?  
When you close your eyes, do you think of, do you think of?
