

# Serious Girl

## Martini Ranch

Treasures of the deep  
Are not as precious as your love  
Hopes, dreams, promises  
Good feelings from above  
In bed we laugh, in bed we cry  
In bed we are born  
In bed we're gonna die  
You are my serious girl  
We are living in a serious world  
Nature is a blinding force  
I heard a beggar say  
Serving good and evil men  
Precisely the same way  
In life we hope, in life we try  
We're gonna make it  
'Cause our love will never die  
You are my serious girl  
We are living in a serious world  
You are a serious world
