I'm Gonna Be Warm This Winter

Connie Francis

We met at a ski lodge, and we fell in love
Right by a fireplace,
We shared our first embrace
And then inside my heart,
I felt a fire start
It's gonna snow outside, the weather will be cold
But I'm gonna be warm this winter! Uh-huh-huh!
Each time your lips touch mine,
They taste like sparkling wine
I feel so warm a glow,
Just 'cause I love you so
It's cozy in your arms, I'm yours to have and to hold
And I'm gonna be warm this winter!
Ice skating on a frozen lake
Sleigh-riding down a mountainside
Roasting popcorn, dancing till the dawn
That was how I knew love was born-born-born-born
It's just like make-believe;
Each night is New Year's Eve
Each day is Christmas Day;
You make me feel this way
It's gonna snow outside, the weather will be cold
But I'm gonna be warm this winter!
It's gonna snow outside, the weather will be cold
But I'm gonna be warm this winter!
Whoa, whoa, whoa, honey, make me warm this winter!
Mmmm, baby, make me warm this winter!
Whoa, whoa, whoa, I'll be warm this winter!
