

Keeping Me Alive (Outtake, 1982)

Tom Petty & The Heartbreakers

They said love was a thing of the past
That these days nothing ever lasts
This old world is movin' too fastWell sometimes we ride around
She plays her radio up loud
If I was sad, well, I'm happy nowAnd it feels so good to know
I got you where you belong
Here in my heart, right by my side
Honey you're getting me by
Yeah you're keeping me alive
I got a job, I work hard
These days the money don't go very far
It's hard enough keeping gas in the carBut sometimes we ride around
She plays the radio up load
If I was sad, well, I'm happy nowYeah and it feels so good to know
I got you where you belong
Here in my heart, right by my side
Honey you're getting me by
Yeah you're keeping me alive
And it feels so good to know
I got you where you belong
Here in my heart, right by my side
Honey you're getting me by
Yeah you're keeping me alive
Yeah you're keeping me alive
Yeah you're keeping me alive
