

Florescent Sunshine

Advisory - the following lyrics contain explicit language:

Army ants living a little white lie
A slave to the wage and the nine to five
I want the monotony
I need the anonymity
It's my personal Jesus
My job defines who I am
It's the evolution of man
My net worth tells me who I am
Take it all and beg for more
This is something you can't understand...anymore
We're all drugged monkeys
Content with our role
We're all porn junkies
Looking for a hole
