

# In My Dreams

## With Broken Wings

and it is only in my dreams  
that I permit myself to be insane  
and I scream for no apparent reason and my urge to crumble  
the lives of others elevates as my...  
my veins, they become a map and words no longer make sense  
for it is only actions that affect  
the extent of my temporary disease in my dreams my veins become a map that guide me through  
insanity...trapped inside my own body, but my actions reflect the work of a madman  
my hands shake uncontrollably, palms soaked in sweat  
come as result of my nightmares, and my dreams (in my dreams...)  
is it ok to kill?  
it's only in my dreams  
my urge to crumble  
drives me insane
