

# U + Me

## Dan Black

With you I'm brighter,  
My eyes like lighters  
They shine inside my Parka

Up with the winds,  
Up with the skies,  
Up with the fears  
But you know with you I'm fine,

You and me we're just fine  
1 million invisible lines  
Out your head and into mine  
You and me we're just fine  
1 million invisible lines  
Out your head and into mine  
You and me we're just fine

With you I'm brighter,  
My eyes like lighters  
They shine inside my Parka

Up with the winds,  
Up with the skies,  
Up with the fears  
But you know with you I'm fine,

You and me we're just fine  
1 million invisible lines  
Out your head and into mine  
You and me we're just fine  
1 million invisible lines  
Out your head and into mine  
We're just fine, just fine

You and me we're just fine  
1 million invisible lines  
Out your head and into mine  
Oh, you and me we're just fine  
1 million invisible lines  
Out your head and into mine

We're just fine, just fine

We're just fine, just fine
