

# First Kiss

## A Rocket to the Moon

I pulled up to a drive  
I tightened up my tie  
And I need to make her wait  
No sleep from the night before  
Her dad answers the front door  
And already knows my name I stand in fear  
As she gets near  
Then everything's okay  
I hope this feeling never goes away I never thought I'd find a love like this  
There's no need to hide that feeling we get  
Whenever we touch we can't resist  
We go back to our first date  
Our first kiss Her face lit by the movie screen  
She's leaning into me  
And time seems to slip away  
Later on we take a walk and  
Good thing she likes to talk  
'Cause I can't think of what to say She looks at me  
And she can see  
The chance I wanna take  
She moves in close  
And take my breath away I never thought I'd find a love like this  
There's no need to hide that feeling we get  
Whenever we touch we can't resist  
We go back to our first date  
Our first kiss Every time feels like a first time Looking back on what we had it never went away  
She still makes me feel it every day I never thought I'd find a love like this  
There's no need to hide that feeling we get  
Whenever we touch we can't resist  
We go back to our first date I never thought I'd find a love like this  
There's no need to hide that feeling we get  
Whenever we touch we can't resist  
We go back to our first date  
Our first kiss
