Hallelujah

Kids In the Way

I'm sick and tired of watching over you
Never knowing what you're gonna do
Well every step you take is closer and closer to falling far away
What's it gonna take, what's it take to make you seeIf it all came down tonight safe from the losing fight
Just know I only want to hear your say"Hallelujah, hallelujah, he's alive in me today"
Hallelujah, hallelujah, he's alive in me todayWell everyday you search for something new
You turn your back on things that make you choose
And every time you do, you're closer and closer to falling far away
What's it gonna take, what's it take to make you seeIf it all came down tonight safe from the losing fight
Just know I only want to hear your say"Hallelujah, hallelujah, he's alive in me today"
Hallelujah, hallelujah, he's alive in me todayIf it all came down tonight safe from the losing fight
Just know I only want to hear your say"Hallelujah, hallelujah, he's alive in me today"
Hallelujah, hallelujah, he's alive in me today
Hallelujah, hallelujah, he's alive in me today
Hallelujah, hallelujah, he's alive in me today, today, today
Hallelujah, hallelujah, he's alive in me todayHe's alive in me today
He's alive in me today
He's alive in me today
What's it gonna take to make you see
He's alive in me today
He's alive in me today
