Basically

Murmurs

Basically thinking of basisally wondering why
Your watch is ticking fast your mind is running slow
The rain is trickling down
It's a meantime madness today
And life's just passin you by
Chorus
'Cause you're basically thinkin of basically wondering why
Basically never like to know
'Cause you're basically out of luck basically growing old
Life has basically been told
Let me be your strength let me hold your body's weight
I wanna walk for you
In your heart you feel your walking memory
But to me you're so alive
How do you hold inside the rage that you must feel
Watching your body give up on you
Chorus
Since I was a child the thing that'll pick me up
I'll do the same for you
Chorus
'Cause you're basically thinkin of basically wondering why
Basically never like to know
'Cause you're basically out of luck basically growing old
Life has basically been told
Let me be your strength let me hold your body's weight
I wanna walk for you
I wanna walk for you
