Tank

Can't lose girl
You're my prize possession heaven know
I would rather die than let you go girl
Can't describe this feeling in my soul
And I can't help but stare you got that glow
Now lemme get a little bit closer
I really wanna be Mr. Your love
The feeling that you give me is so good You're my star
It's hysteric, I just found my star
I'm so infatuated with who you are
My star, my star, my star
A problem not to far
Only you, you're are my star I get chills, every time I think about your smile

Can I be a fool if don't keep you around
Cause baby girl you light up my world

Only you, you're my star Only need you, (Need you)
Got curves like the moon (It's a full moon)
But you're hotter than the sun

So I only need you, my personal moon
But you're hotter than the sun
Baby, you're my one You're my star
It's hysteric. I just found my star

My star, my star, my star
A problem not to far
Only you, you're my star.-Break/Jam-Yeah you're the girl of my dream.
Fell from the sky now she hangs with me.
Can't believe my eyes and what they see
Got the brightest star in the galaxy oh

She shining on em
(unknown) like a diamond on em
Hotter than the sun she light it up
Them others stars wasn't shooting high enough
Girl the thing about you
It don't take much to see that you the truth oh
And it's all about you
I'm in love with all that you do
And it feels so right
Shining all day not just all night
